## The Breck Foundation

The Breck Foundation raises the awareness of playing safe whilst using the internet. Breck Bednar was a 14 year old boy from Surrey who loved technology and online gaming. He was groomed via the internet and murdered in February 2014 by an 18-year old he met online. This foundation has been set up in his memory to help other young people enjoy playing online but crucially to be aware of some simple rules to stay safe.

Breck's mother, Lorin LaFave, set up the Breck Foundation to tell her son's story and help prevent others suffering online. Lorin speaks in schools, to staff, children and parents. She is an amazing speaker and the message is so powerful.

**Be aware:** Opening files, accepting emails, IM messages, pictures or texts from people you don't know or trust can lead to problems - they may contain viruses or nasty messages

**Report it:** Tell your parent, or trusted adult if someone or something makes you feel uncomfortable or worried, or if you or someone you know is being bullied.

**Educate:** Someone online might lie about who they are and information on the internet may not be true. Always check information with other websites, books or someone who knows. If you like chatting online it's best to only chat to your real friends and family

**Communication:** Meeting someone you have met online can be dangerous. Remember online friends are still strangers even if you have been talking to them for a long time. Never meet up with them alone and always speak to a parent or carer beforehand.

**Keep safe:** Keep safe by being careful not to give your personal information when you are chatting or posting online. Personal information includes your email address, phone number, password, location
